Web Developer, UI Designer

Toronto, ON

Programmer and Designer with the ability of storytelling and creative problem solving. I am currently on my senior year studying Computer Science at Ryerson University.

It is also my passion and core mission to deliver digital products and create meaningful impact through technology.

EDUCATION

Ryerson University
Computer Science
2015-Present

EXPERIENCE

ASHRAE RYERSON
HTML, CSS, bulma, Javascript, Git, Figma.
WEB DEVELOPER INTERN
JULY 2019 - PRESENT

In general, my role in ASHRAE is to design and code web pages. I make every efforts to create a visually appealing and and user-friendly yet professional looking website. To craft the website, I mostly work 65:35 on front-end and backend respectively. Noticeable achievements since I took over the WebDev role is including the number of attendees going to ASHRAE's event has gone up by 35%.

GLOBAL ENERGI MAKMUR
Python, Django, SQLite, HTML, CSS, UNIX, Git
WEB DEVELOPER INTERN
JUNE 2018 - SEPTEMBER 2018

Overall, The company was transitioning from manual recording of each truck that take days to obtain the result, to a more streamlined webapp that everyone that has login id can see. My role in the internship was to implement a webapp for the company to track each truck they have on route from one site to another site. Hence, we'll be able to calculate the productivity of the truck or the driver.
